Local Company in Top 5% of Microsoft Partners Worldwide

Comprehensive Data Services, Inc. (CDS), has achieved a Silver **Small and Midmarket Cloud Solutions** competency, demonstrating its ability to meet Microsoft Corp. customers' needs in today's dynamic business environment. CDS successfully demonstrated expertise through exams, culminating in Microsoft certifications. And to ensure the highest quality of services, Microsoft required customer references to verify successful implementations and customer satisfaction.

"This Microsoft Silver Small & Midmarket Cloud Solutions competency showcases our expertise in today's technology market and demonstrates our knowledge of Microsoft and its products," said Michael Weaner, President of CDS. "Our plan is to accelerate our customers' success by serving as technology advisors for their business demands."

"By achieving a silver competency, CDS has proven their expertise in specific technology areas, placing them among the top 5 percent of Microsoft partners worldwide," said Phil Sorgen, corporate vice president, Worldwide Partner Group at Microsoft Corp. "When customers look for an IT partner to meet their business challenges, choosing a company that has attained Microsoft competencies is a smart move. These are highly qualified professionals with access to Microsoft technical support and product teams."

Since 1986, Toledo-based CDS has provided small and medium businesses throughout Northwest Ohio with Information Technology Services.
